## THE BENEFITS OF PERMEABLE PAVERS

Our selection of permeable pavers combines strength, functionality & aesthetics to provide an alternative solution for stormwater management in a variety of applications.

### WATER HARVESTING

Reduce water demand for landscaping by designing a permeable paver system that harvests and recycles rainwater.

### ELIMINATE STANDING WATER

Improve site drainage to avoid pooling water where mosquitos can breed.

### REPLENISH AQUIFERS

Permeable pavers filter water, removing contaminants and ensuring receiving waters and ecosystems are self-sustaining.

### MANAGE RUNOFF

Aid landscaping by reducing erosion that occurs when grass is dry or dead.

### FLOOD PREVENTION

Permeable pavers can absorb rainwater at a rate of over 500 inches per hour, eliminating runoff.

## PERMEABLE JOINT INFILL OPTIONS

Work with your local Belgard sales representative to design the ideal permeable pavement system to suit both your aesthetic and water management needs. When using non-traditional permeable joint materials, changes to the paver installation will be required.

EXCLUSIVE PAVER TECHNOLOGY FOR

# LIMITLESS DESIGN POSSIBILITIES

## BUDGET CONSIDERATIONS

Construction projects rarely proceed exactly as initially designed and quoted. Unforeseen complications and decisions during construction can affect costs, which vary based on site conditions, project size, finishes, and more. Pavers and wall products may only account for 20% of the total cost. Choose products you'll enjoy long-term without compromising.

*\*Depending on site conditions, design decisions and overall scope.*

### CUSTOMIZING YOUR SPACE

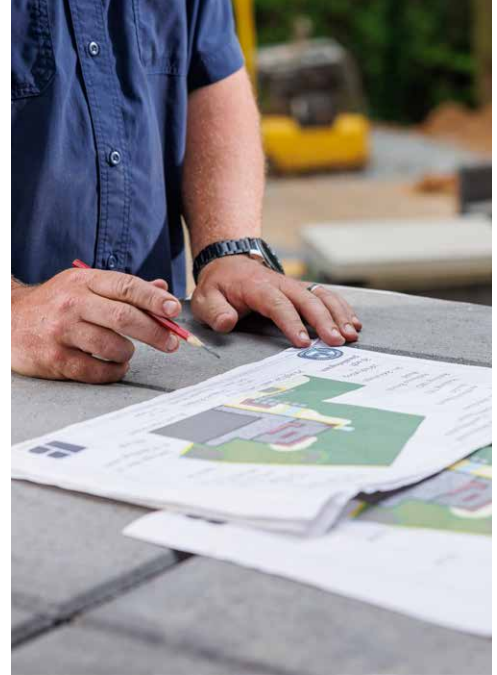

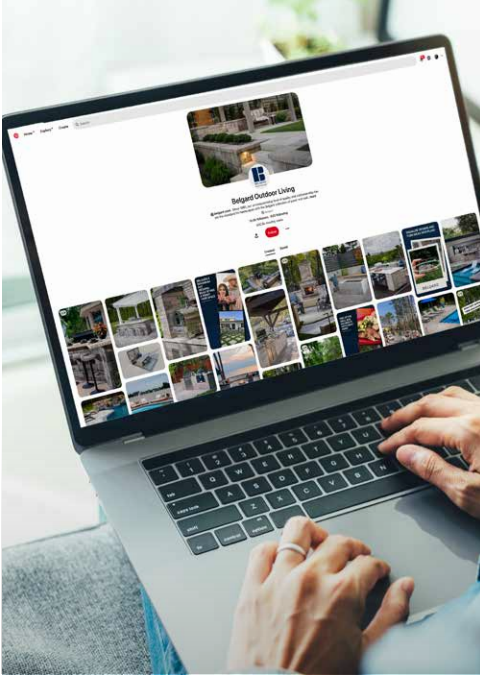

Expanding the project footprint or adding features can raise costs but also significantly boost functionality and enjoyment. Popular upgrades include shade, lighting, fire features, and cooking areas. Work with your contractor to optimize your space within budget, explore financing options, or plan phased construction over time.

There are no other warranties, representations, or conditions of any kind, express or implied, statutory or otherwise, with respect to the interlocking concrete paver or retaining wall products supplied by manufacturer, including, but not limited to, any implied warranties of merchantability or fitness for a particular purpose.
