

SILVERLAKE

STONE FINISH

ELEGANT NUANCES, PAINSTAKING DETAILS AND SOFT VEINING EFFECTS INTERTWINE FOR MAXIMUM VERSATILITY

SILVERLAKE

STONE FINISH

ELEGANT NUANCES, PAINSTAKING DETAILS AND SOFT VEINING EFFECTS INTERTWINE FOR MAXIMUM VERSATILITY

FEATURES & BENEFITS

- A range of balanced, neutral colours with soft veining effects
- Incredibly high breakage loads, up to 3,000 pounds
- High density and ultra-low absorption rate creates a tight surface texture and fends off surface mold, moss, dirt and other types of stains
- Modular for faster installation,
- Unaffected by alkalis, acids, chemical agents, salt and other de-icing materials.
- Can be cleaned with normal household cleaners and even pressure washed with a low pressure washing device.*
- Structured top textures create non-slip surfaces.
- Freeze thaw resistant—100% frost-free and properties remain unaltered at temperatures ranging from -51.1° to + 60° C (-60°F to +140°F).

**It is important that all pressure washing of your porcelain pavers be done with a low pressure washer with a maximum of 1600 psi and nothing more powerful. When pressure washing your installation, care should be taken to prevent damage to the grout (adhesive and grout installations) and some re-sanding will be necessary when power washing an installation with sand or polymeric sand joints.*
