BUDGET CONSIDERATIONS

Construction projects rarely proceed exactly as initially designed and quoted. Unforeseen complications and decisions during construction can affect costs, which vary based on site conditions, project size, finishes, and more. Pavers and wall products may only account for 20% of the total cost. Choose products you'll enjoy long-term without compromising.

A photograph of an outdoor patio area at night. The patio is paved with large, irregular, light-colored stone pavers. A low, dark stone wall runs along the edge of the patio. Underneath the wall, there are several recessed lighting fixtures that are illuminated, casting a warm, yellow glow. In the background, there are some green plants and a dark, rounded object, possibly a lamp or a planter.
